

Relentless Drive to  
Deliver Innovative  
and Sustainable  
Solutions

# WHO WE ARE

Qualitech is a multinational inspection, repair and maintenance company that operates in the oil, gas and energy sector with efficiency, sustainability and integrity.

The Company executes projects in an innovative way, using Conventional and Rope Access techniques, always seeking excellence, quality, safety and respect for the environment.

## OUR PURPOSE

Quality and innovation to ensure safety and sustainability in all operations.

## OUR VISION

To be a global reference in Inspection, Repair and Maintenance solutions, with excellence in execution, integrity, and sustainability.

## OUR VALUES

Our beliefs and attitudes are based on five values, which define our DNA

**Our focus will always be on ensuring the safety and continuity of Oil, Gas and Energy operations.**

# OUR GLOBAL FOOTPRINT

**+550**

Global Manpower

**+20**

Number of countries we have worked in

**+300.000**

Offshore man days

**+5000**

Number of projects

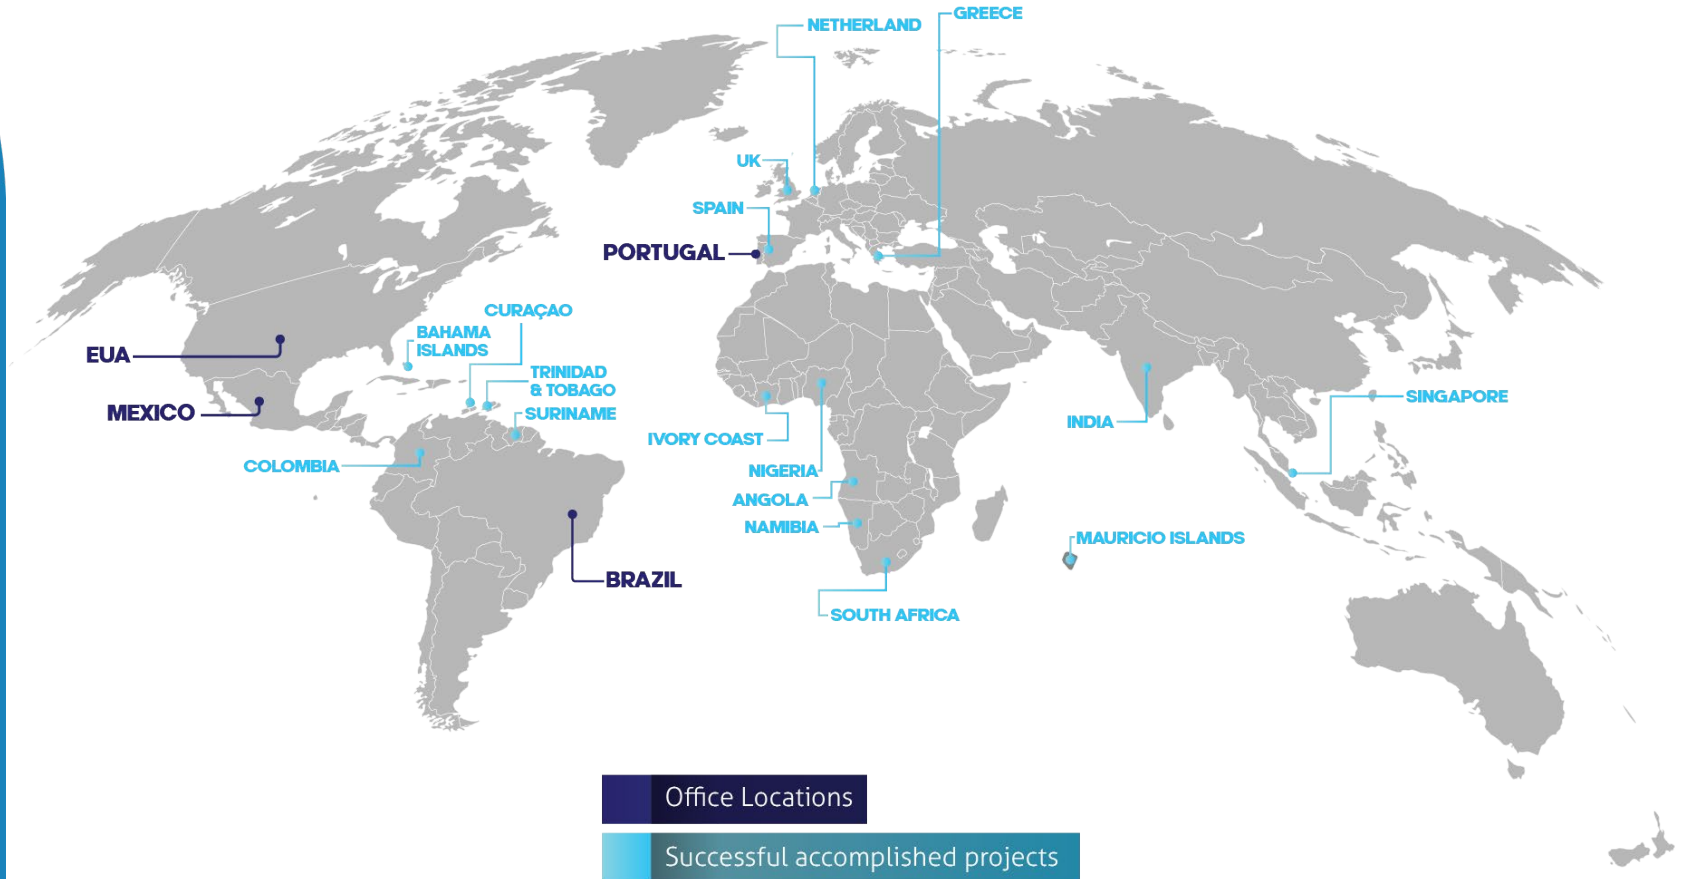

Incident rate

**Above 9,0**

Overall average feedback

# OUR ACCREDITATIONS

We believe and invest heavily in the development of the Integrated Management System, concurrently in the security of three of the main Global Classification Societies, guaranteeing the robustness of our management system, the quality and efficiency of our operations:

- Integrated Management System (ISO 9001, ISO 14001 and 45001),.
- NDT Class and Hull Gauging Inspections, by ABS, DNV, BV and Loyd Register

# CUSTOMIZED SOLUTIONS SEGMENTED FOR EVERY NEED

## INSPECTION, REPAIR AND MAINTENANCE

Services with efficiency,  
quality and reduced cost  
solutions due to the speed  
of execution using the rope  
access technique.

# SERVICES

## PERIODICAL INSPECTION

Lifting Equipment Inspection

API Derrick & Bolt Inspection

Dropped Object Inspection

BHA / Tubular Inspection

Drilling Handling Tools

Crane Inspection and Load Testing

Helideck Inspection and Load Testing

Lifeboat Inspection and Load Test

## INTEGRITY AND CLASS INSPECTION

NDT - Conventional / Advanced

SPS Hull Gauging and Structural Inspection

HP / LP Piping in Service Survey

Drone Inspection

Brazilian Offshore Regulation Adequacy

Fabric Maintenance & Asset Integrity

Dolly Track Alignment Inspection

## REPAIR

Engineering and Project Management

Maintenance using Rope Access

Painting / Welding / Cutting / Electrical

Dolly/Guide Rail & Equipment Alignment

# SERVICES

## MAINTENANCE

Critical Rigging Projects

Heavy Lift Rigging Operations

5 Yearly Drilling Equipment Replacement

Crane Cylinder Replacement

# CRITICAL RIGGING PROJECTS

Newbuild or Rig reactivation projects

Deadline Anchor Replacement

AHC Cylinder Replacement

Generator Engine Replacement

CMC Cylinders Replacement

Fingerboard Replacement

Crown Cluster Sheave Replacement

KBC Main and Jib Cylinder Replacement

Rocker Arm Sheave Replacement

BRC Gripper Head and Hoses Replacement

Deadline and Fastline Replacement

Hydraracker Replacement

Top Drive Replacement

Olmsted/Isolation Valve Replacement

Traveling Block Replacement

Dolly Replacement

TDS Service Loops Replacement

MPD Installation Services

**CAMMS**  
CLOUD ASSET MANAGEMENT SYSTEM

An **innovative** online **platform** to manage asset inspection, provide a **sophisticated inventory system** and reports tailored to our business and **customer needs**.

# CAMS - An innovative online platform to manage our portfolio of services all-in-one solution.

3.

## Dropped Object Module

Inspection reports, inventory, location, inspection book, map and recommended corrective actions.

2.

## API 4G Derrick&Bolt Inspection Module

Inspection reports, inventory, location, inspection book, map and recommended corrective actions.

1.

## Lifting Gear Module

Inspection reports, inventory, equipment and certificates.

- Sistema Multilingue (MLS)
- Fast and Light
- Safe and ready for the future

4.

## Wall Thickness Module

Inspection reports and inventory.

5.

## BHA

Inspection reports and inventory.

6.

## NDT General Module

Miscellaneous reports, inspection, drilling equipment.

7.

## Library

Databook, other reports.

# PROJECT MANAGEMENT - BI

Controls Project execution of campaigns , performance indicators and financial status

# OUR MILESTONES

2013

- Opening of the company 
- Certified Member DROPS and ABENDI
- Certifications achieved Brazil: ISO 9001 14001 18001
- 21 Employees
- 22 projects achieved

2014

- Certified Member: DROPS and ABENDI
- First Long-Term inspection contract
- First 5 Yearly Drilling Equipment Overhaul carried out 6th Generation Rig in Brazil
- 44 Employees
- 100 Projects achieved

2015

- Mexico Opening 
- Unprecedented Critical Rigging project carried out Offshore without Shipyard Crane support
- Projects carried out abroad: Curaçao
- 81 Employees
- 240 projects achieved

2016

- Projects carried out abroad: Angola and Spain (Tenerife)
- CRC Petrobras Register
- 87 Employees
- 400 projects achieved

2017

- DNV Certification on NDT Classification Project
- DNV Certification on Thickness Measurements on Ships in Accordance with DND-0484 Class Program
- 132 Employees
- 750 projects achieved

2018

- Portugal Opening 
- Online Learning Platform development and implementation
- 148 Employees
- 1.150 projects achieved

# OUR MILESTONES

2019

- Implemented our new Report Generator System: CAMS - Cloud Asset Management System
- Exhibitor at the OTC Houston for the 1<sup>st</sup> time
- Certification achieved: ABS Hull Gauging Firms
- 170 Employees
- 1.600 projects achieved

2020

- 18 Countries with Successful Accomplished Projects
- 7x Long Term Fleet Inspection Contract
- IADC Associated Member
- 216 Employees
- 1.700 projects achieved

2021

- Certifications achieved Mexico: ISO 9001:2015.
- Qalyteam Software Implementation
- 312 Employees
- 2.240 projects achieved

2022

- 8 Countries with Successful Accomplished Projects
- SAP and DRAKE Software Implementation
- Certifications achieved Mexico below: ISO 45001:2018, DROPS, ABS ESP Hull Gauging, ABS - NDT Class Inspection

2023

- DNV - Thickness Measurements on ships and mobile offshore units.
- DNV - NDT Class Inspection
- 377 Employees
- 2.963 projects achieved
- USA Opening 

2024

- Loyds Register Certification Achieved
- 550+ Employees
- 5000+ projects

- 150 + Offshore Asset Operations - Drilling Rigs/FPSOs/Maritime Support Vessels
- 25+ Renewable Energy Projects
- 2 MM+ hours worked offshore and 1 MM+ Hours of Work at the Office
- 550+ Employees
- 5.000+ Projects
