

**Relentless Drive to  
Deliver Innovative  
and Sustainable  
Solutions**

## WHO WE ARE

Qualitech is a multinational inspection, repair and maintenance company that operates in the oil, gas and energy sector with efficiency, sustainability and integrity.

The Company executes projects in an innovative way, using Conventional and Rope Access techniques, always seeking excellence, quality, safety and respect for the environment.

## OUR PURPOSE

Quality and innovation to ensure safety and sustainability in all operations.

## OUR VISION

To be a global reference in Inspection, Repair and Maintenance solutions, with excellence in execution, integrity, and sustainability.

## OUR VALUES

Our beliefs and attitudes are based on five values, which define our DNA

Our focus will always be on ensuring the safety and continuity of Oil, Gas and Energy operations.

**+550**

Global Manpower

**+20**

Number of countries we have worked in

**+300.000**

Offshore man days

**+5000**

Number of projects

Incident rate

**Above 9,0**

Overall average feedback

## OUR ACCREDITATIONS

We believe and invest heavily in the development of the Integrated Management System, concurrently in the security of three of the main Global Classification Societies, guaranteeing the robustness of our management system, the quality and efficiency of our operations:

- Integrated Management System (ISO 9001, ISO 14001 and 45001),.
- NDT Class and Hull Gauging Inspections, by ABS, DNV, BV and Loyd Register

# CUSTOMIZED SOLUTIONS SEGMENTED FOR EVERY NEED

**INSPECTION, REPAIR AND MAINTENANCE**  
services with efficiency, quality and reduced  
cost solutions due to the speed of execution  
using the rope access technique.

## SERVICES

### PERIODICAL INSPECTION

Lifting Equipment Inspection

API Derrick & Bolt Inspection

Dropped Object Inspection

BHA / Tubular Inspection

Drilling Handling Tools

Crane Inspection and Load Testing

Helideck Inspection and Load Testing

Lifeboat Inspection and Load Test

## SERVICES

### INTEGRITY AND CLASS INSPECTION

NDT - Conventional / Advanced  
SPS Hull Gauging and Structural Inspection  
HP / LP Piping in Service Survey  
Drone Inspection  
Brazilian Offshore Regulation Adequacy  
Fabric Maintenance & Asset Integrity  
Dolly Track Alignment Inspection

## SERVICES

### REPAIR

Engineering and Project Management

Maintenance using Rope Access

Painting / Welding / Cutting / Electrical

Dolly/Guide Rail & Equipment Alignment

## SERVICES

### MAINTENANCE

**Critical Rigging Projects**

**Heavy Lift Rigging Operations**

**5 Yearly Drilling Equipment Replacement**

**Crane Cylinder Replacement**

# CRITICAL RIGGING PROJECTS

**Newbuild or Rig reactivation projects**

**AHC Cylinder Replacement**

**CMC Cylinders Replacement**

**Crown Cluster Sheave Replacement**

**Rocker Arm Sheave Replacement**

**Deadline and Fastline Replacement**

**Top Drive Replacement**
